

At a Kalamazoo Near You

'Spaced Out' (Track 6)

Runtime: 5:03

Music Video Concept – Brendan Mullin

Summary - What if E.T. never went home?

A middle-aged childless couple 'adopt' a little green alien they one day find on their doorstep and raise it as the child they've always wanted. Despite his overtly conspicuous appearance the little alien boy grows to become a well – adjusted and popular member of his extended family and community - only for his real extra – terrestrial father to show up on the day of his graduation from college.

Setting – Days of our Lives

The story of the alien's life on earth will be told in an episodic fashion – following key events in his life such as:

Birthdays

First day of School

Summer holidays

His first girlfriend

Christmas day

Halloween

Sports day

Passing his driving test

Graduation

Presented in a down-to-earth, home-spun manner these 'episodes' will conjure the nostalgia of days gone by and, due to the outlandish presence of our protagonist, give proceedings a lightly comic edge.

Shooting – The Wonder Years

Following on from the above, the style of the video will be that of ‘home movies’, much like the opening credit sequence of 80’s TV show, ‘The Wonder Years’.
