

TRACK 2 - TAKE ME WITH YOU [2m15s]

ANNA MC CAUGHTRY

A man walks into frame, and notices a cable coming out of the ground, and starts to follow it. We see this man walking down back alleys, over obstacles, through houses, following this cable until eventually he reaches it's end point ... a TV, slightly embedded into the ground, screen facing upwards. As he comes closer to the screen he sees that there is something playing on it, and it's the Men In Speedos, in outfits dancing about, tapping the screen asking to get out.

REQUIRED:

Several locations, perhaps using camera shot in both directions to make double up on potential shots; a length of cable & depending on the locations it may need to be up to 20m long; TV; pre-shot footage of Men In Speedos acting the wag; a man

One camera shoot. One day shoot.
